

GREATERINDIANA.COM

When it comes to managing budgets and keeping an eye on the environment, business owners and fleet managers alike face many challenges. That's where GM's 2013 Bi-Fuel Silverado/Sierra comes in. It's designed to help businesses reduce their costs and environmental impact.

ENGINEERED BY GM

- * The Bi-Fuel Silverado/Sierra 2500HD Extended Cab uses a proven, 6.0L Vortec V8 engine with factory-installed hardened exhaust valves and intake/exhaust valve seats. These components are engineered to GM durability standards for gaseous fuel use.
- * Bi-Fuel option is available for long or short-bed models in both 2WD and 4WD
- * The CNG system has superior performance allowing you to switch from one fuel to another while driving, and the system will automatically switch over to gasoline when the CNG tank is empty

* The combined 17 GGECNG tank and 36 gallon gasoline tank provide a range of more than 650+ city miles

Model Availability
